

Artist Statement

Finding a balance between vision and technique to create photography that others will enjoy is always my goal. Whether preserving memories in portraits and events, or trying to capture the beauty of our world, creating art that others value and enjoy is what continues to inspire and motivate me.

My work aims to present scenes from life as I have experienced them, and bring others along on a shared journey of visual exploration.

Above all, my wish is that my work will propel and motivate others to get out and see the world with their own unique vision, and continue the exchange of vision that photography gives to all of us.
